

INFORMATION PACK FOR SMARTEX UK FORUMS

JOINING THE SMART COMMUNITY?

Smartex IS the smart community

25th year of service

TEN REASONS TO JOIN SMARTEX

1. How much of retail and transport services will contactless EMV penetrate, and when?
2. How will the explosive growth of IoT affect our market, and will it be MNO-led?
3. Smart cards could soon be superseded by mobile NFC: but how and when?
4. Could alternatives to NFC, such as 2D Barcodes, BLE or iBeacon become dominant?
5. Why is there no clear national strategy for commercial public transport payment systems?
6. Will the new breed of challenger banks threaten existing schemes and banks?
7. Who will win in the emerging micropayment, e-payment, prepaid and m-payment worlds?
8. Who will win the m-wallet wars, and is there really a future for m-wallets?
9. Will smart ticketing and payment interoperability give ITS0 a true national role in public transport?
10. Will smart campus schemes migrate to NFC or adopt biometrics?

Smartex Forums debate & seek answers to these and other pressing, highly topical issues.

Be part of the largest network of smart associations in the world.

Since 1993, 530 of our sector-specific meetings have attracted some 16,750 delegate-days of attendance, with over 1,900 specialist speakers covering the entire spectrum of smart cards, the smartphone revolution, IoT, biometrics, RFID tags, wearables and related technologies as applied to the main smart market areas. With so many new technologies, applications and form factors on the near horizon, it's hard to understand or even imagine our industry without Smartex meetings and networking.

Several of our Forums have become sector-specific, especially for transport ticketing and payment, for University and College smart campus schemes, and for the FinTech market. The newest Forum, IoTa, addresses the huge emerging opportunities relating to the little-understood Internet of Things. From 2017 we are widening the scope of our Near Field Club to include eID and its relationship with mobiles, and will rebrand this as MIDAS (Mobile ID Association).

During 2016, some 550 different individuals attended our 21 meetings, representing 298 organizations. Worldwide membership, covering our affiliated associations in Asia Pacific and Central Eastern Europe, exceeds 220 companies from all parts of our industry. Networking, and doing business with fellow members and other delegates, not only in the UK but also through our affiliated Forums overseas, is therefore yet another real benefit of membership.

Annual membership fees, which have not risen for several years, can be as low as £1,100 - for 4 full-day attendances and a wide range of other useful services - which makes £950+ for a one-day public conference look pretty expensive. Can you afford not to be part of this influential group at the heart of these fast-moving and volatile technologies so vital in the new e- and m-worlds?

Smartex Limited

Registered office: 8A The Mount, High Street, Toft, Cambridgeshire CB23 2RL
Registered in England No: 02758219

OVERVIEW OF SMARTEX FORUMS

Smartex was established in 1993, and since then has developed the world's leading group of membership-based associations for organisations working in the smart technology sector. Smartex brings together the community of suppliers, users and potential users, to share knowledge and increase awareness of each sector's successes, issues and potential direction and pace.

As a member of Smartex, you and your company will be part of this community, and will have the opportunity to meet industry peers and – if you are a service provider – prospective customers, regularly and informally.

Whether your interest is purely technical, or related to a specific sector, membership of Smartex offers excellent value by providing a wide range of useful services including:

- Sector-based Forums encompassing the topics of the day and fast-moving technologies including smart cards, biometrics, NFC, IoT, RFID, micropayments and related applications and (from 2017) eID
- Access to the Smartex website, including members-only areas and past meeting presentations
- Receipt of Smartexpress, the Smartex daily emailed news service circulated to nearly 2,000 key industry contacts (your organisation can receive multiple copies of this)
- Free company entry (if you are a supplier) in the Smartex International Supplier Directory
- Discounted advertising on the Smartex website and in Smartexpress
- Discounted attendance at many public conferences and other related events
- Access to SmartexMoves, a specialised on-line recruitment service for those looking for employment or consultancy work, and for organisations seeking new staff members or consultants
- Participation in our LinkedIn Group. Smartex is also active on Twitter
- Discounted attendance at specialised residential Smartex Workshops
- Discounted rates for the legendary Smartex annual overseas event group visit.

UK Smartex Forums

1. Smart Card Club (SCC)
2. Transport Card Forum (TCF)
3. Higher Education Smart Campus Association (HESCA)
4. Smart Payments Forum (SPF)
5. Near Field Club (NFC) – **from 2017 to be rebranded to focus on Mobile & Identity**
6. Internet of Things Association (IoTA)

International Smartex-affiliated Forums

- Asia Pacific Smart Card Association (APSCA)
- Central Eastern European Smart Card Association (CEESCA)

PLANNED MEETING TOPICS

Smartex Forum meetings, whilst planned in advance in terms of overall themes, are designed to cover important topics of the moment, whether technical or operational.

A number of subject areas have already been identified as being relevant for consideration and debate during 2017. These are set out below, within each of our Forums. They are naturally subject to change, depending upon the status of the various market sectors at the time of the meetings.

NEAR FIELD CLUB (NFC) *from 2017 to be rebranded to focus on Mobile & Identity*

This Forum meets quarterly. Meeting subjects are selected by its Steering Group. Amongst the topics and activities that we are likely to be addressing are:

- Linking eID and mobiles
- Biometrics on mobile (for phone access or transaction authentication)
- Mobile channels for authentication (using SMS)
- 2nd factor authentication
- Using NFC/BLE tokens for access control - could include event tickets, rail tickets
- Payment authentication (coupled with tokenization, NFC)
- Mobile identity fraud
- Using open standards
- FIDO on mobiles
- Blockchain identity
- Mobile passport
- Mobile driving licence
- NFC security methodologies and challenges
- SE form factors: HCE, TEE, SD card, SE in SIM, SE in handset, SE in powered sticker
- Mobile wallet wars
- NFC: The Apple predicament
- Related standards and regulations
- The above will have an emphasis on UK activities but will introduce overseas sessions where relevant and important

SMART PAYMENTS FORUM (SPF)

This Forum meets quarterly. Meeting subjects are selected by its Steering Group. Amongst the topics and activities that we are likely to be addressing are:

- New innovations in commercial payments
 - Cross-border payments; e-Invoicing; e-Procurement; GPS eProcurement Card Framework
- Data protection and the various e-money regulations and the impact of PSD2
 - The impact of mPoS
 - The coming invisibility of payments
 - The role of loyalty schemes
- New innovations in consumer payments
 - Tokenisation
 - Alternative and disruptive payments
- The impact of challenger banks and the future of the schemes
- E-payments
 - Internet payments; m-payments; micropayments; Paypal; EMV, cEMV & Chip&PIN
 - Mobile wallets: ubiquity, universality or fragmented competition?
- New stakeholders in the payments game: Amazon and other strategies
- The future for Purchasing Cards, Prepaid cards, fuel cards, meeting cards, gift cards etc.
- Developments in Central & Local Government banking and payments
- Card personalisation and issuance in a mobile world
- Security, authentication and fraud
- Payment acceptance terminals: types and future

TRANSPORT CARD FORUM (TCF)

This Forum meets quarterly. Meeting subjects are selected by the TCF Steering Group. Amongst the topics and activities that we are likely to be addressing are:

- Updates from the DfT for current and proposed smart ticketing and payment strategies
- Establishment of TCF Working Groups for analysis and recommendations on topical issues
- The continuing development of mobiles for transport applications such as journey planning, ticketing, boarding cards, payment and many other useful applications for travellers
- The deployment of MaaS and its impact
- Account-based ticketing (ABT) and its impact
- Monitoring of initiatives and plans for commercial smart ticketing and payment
- Smart ticketing and payments for rail and bus
- Developing effective Real-Time-Information systems
- Overview of smart technology for air and sea travel
- Exposing relevant technical issues, for example for bus exit reading & ungated train stations
- Using tokenisation technology to improve security
- Pay-As-You-Go in urban areas
- Updates on the progress of the ITS0 specification and of ITS0 Limited activities
- cEMV contactless card technology and its evolving role in UK public transport
- Do UK transport operators really want interoperability?
- The how, where, when and what of TfN, and its impact on Northern regional schemes
- Improving the whole-journey experience with smart technology
- Assessment of winners and losers in the transport contactless payment arena
- Are beacons going to happen in transport?
- Will the future bring a national account-based central system for transport payments?
- Why do QR codes refuse to die?
- Case studies from UK LA-controlled and commercial smart transport scheme operators
- Case studies from overseas smart transport initiatives
- **TCF17**: Birmingham is the location for annual two-day regional conference and exhibition

HIGHER EDUCATION SMART CAMPUS ASSOCIATION (HESCA)

This Forum meets quarterly. Amongst the topics and activities that we shall be addressing are:

- Developing an effective attendance monitoring system to support a student retention strategy
- Smart campus schemes as part of an ID Assurance programme
- New techniques for card issuance processes and procedures
- The potential impact of smartphones on smart campus card schemes
- The use of biometrics in HEI/FEIs: products, software, standards and choices
- Towards the cashless campus: products and challenges: do bank cards have a role?
- The business and financial cases and plans for introducing cashless campus routines
- Presentations by e-payment system providers: open or closed-loop?
- The emerging new generation of physical access control system architectures
- Using smart campus schemes for logical and system access control
- Supporting innovative new functions with existing smart campus schemes
- Case studies from UK and overseas smart campus card schemes
- Successful strategies for card migration to a higher security form factor
- Development of statements of best practice for HEI/FEIs
- Development and progress of the HESCA Starter Pack for integrated supplier products
- **HESCA17**: Cardiff is the location for annual two-day regional conference and exhibition

INTERNET OF THINGS ASSOCIATION (IoTA)

This Forum meets quarterly. Meeting subjects are selected by the IoTA Steering Group. Amongst the topics and activities that we are likely to be addressing are:

- Completion of the IoTA website area and its launch

- Completion of the 'dating service' on the website, to promote collaboration and alliances between the different service providers within the IoT spectrum
- Funding sources and approaches
- Gaining and disseminating a common understanding of IoT technology, applications, data protection, privacy, standards and security
- A support group where useful IoT and associated standards can be evaluated and endorsed
- Providing an environment where practitioners can discuss IoT case studies
- A networking centre where all types of stakeholders can meet, share experiences and do business together
- An information exchange for new IoT hardware, security, software and networking architectures and products can be exposed, discussed and understood
- Development of a clear understanding of the various communications methods and technologies that may be used for IoT
- Later on, an online forum to enable discussion and debate to continue outside the physical meetings

SMART CARD CLUB (SCC)

Amongst the topics and activities that we shall be addressing are:

- New entrant technologies and their potential impact on the smart card market
- Public sector and local government smart projects and plans
- Prepaid products and projects
- RFID tag applications and technologies
- Emerging smart standards and other international specifications
- Loyalty applications across retail and financial sectors
- Case studies, including user feedback of experiences with products and services
- Development of the financial business case and funding issues/solutions for a scheme
- End-of-year summary of Smartex Forum progress and activities.

MEMBER SERVICES

Meeting services

- 19 full-day meetings during the year, mostly in a central London venue
- 3 two-day regional conferences and exhibitions at other UK locations, for the TCF, HESCA and IoTA
- Specialist speakers and plenty of networking opportunities
- Free attendance for invited prospective scheme operators

Emailed services

- Smartexpress daily news: we scan up to 500 news items a day so you don't need to
- Keeping In Touch: occasional headline announcements and discounted conference invitations
- Member Alerts: breaking opportunities and tender intelligence

Web-based services

- Past meeting presentations: missed one? Catch up in our members-only website areas
- Smartex International Supplier Directory: get your products/services seen by the world of buyers
- External events calendar: major international events at your fingertips
- SmartexMoves: find a job, or find an employee or consultant
- SmartExposure: advertise your product/service on our website homepages and in Smartexpress.

Other services

- Residential workshops:
 - Smart campus workshops: essential for HE/FE Institutions considering a smart campus scheme
 - Smart transport ticketing and payment workshops
 - In 2017 we are planning further workshops on subjects such as IoT and Biometrics, with a possible Masterclass for ITS0
- HESCA Starter Pack: a vanilla solution for HE/FE Institutions, combining interoperable products
- Smartex consultancy services: independent and objective help with your smart ideas:
 - Development and implementation of smart campus schemes for HEI/FEIs
 - Conduct of feasibility studies and business case development for smart card schemes
 - Project management and implementation services for smart card schemes

MEMBER BENEFITS

Apart from the substantial cost-saving of membership when compared with the price of attendance at most public conferences, members of Smartex Forums also enjoy a wide range of specific benefits, including:

- **Learning from the experts**
 - Each Forum meeting offers attendees the opportunity to hear topical presentations from professional speakers at a fraction of the cost of an industry conference. Each forum is chaired by an industry specialist, and interactive debate is encouraged. Lively question and answer sessions are the norm.
- **Meeting the industry**
 - The opportunity for delegates to network informally at each Forum over lunch, refreshment breaks and in the bar afterwards, remains a vital part of the success of every Smartex meeting. With other attendees being current users, suppliers or potential customers, members are encouraged to network openly and freely throughout the day.
- **Keeping up-to-date**
 - Pain-free daily news update, keeping you abreast of the latest breaking industry news about smart technology, IoT, biometrics, NFC, RFID and micropayments.
- **Getting known by the industry**
 - The opportunity to advertise your company's services on all Smartex website pages and in Smartexpress (at discounted cost). Members are also often invited to present at meetings if they have new and relevant projects, products or services to offer.
- **Reviewing the world of smart technology**
 - Smartex-organised and led annual group visit a major overseas industry event, at discounted rates for members. This is being reviewed for 2017, and new overseas tours may be offered.

SMARTEX FORUM MEETING DATES

2017 Calendar

Date	Event	Location
NOV		
Tue 7	Mobile & Identity	London
Thu 23	Higher Education Smart Campus Association (HESCA)	London
Mon/Wed 27-29	TRUSTECH 2017	Cannes, France
DEC		
Tue 5	Transport Card Forum (TCF)	London
Tue 12	Smartex Christmas Event	t.b.c., London

2018 Calendar

Date	Event	Location
FEB		
Tues 6	Smart Payments Forum (SPF)	Brown's, London
Tues 20	Mobile & Identity	Brown's, London
MAR		
Tues/Weds 6/7	HESCA18 – Higher Education Smart Campus Association National Event	t.b.c., Cambridge
Tues 13	Internet of Things Association (IoT)	Brown's, London
Tues 20	Transport Card Forum (TCF)	Brown's, London
MAY		
Tues 1	Smart Payments Forum (SPF)	Brown's, London
Tues 22	Mobile & Identity	Brown's, London
JUN		
Tues 5	Higher Education Smart Campus Association (HESCA)	Brown's, London
Tues 12	Internet of Things Association (IoT)	Brown's, London
Tues 26	Transport Card Forum (TCF)	Brown's, London
JUL		
Thurs 5	Smart Payments Forum (SPF)	Brown's, London
Tues 10	Smartex 'Field Day' Event	t.b.c.
SEP		
Weds 5	Mobile & Identity	Brown's, London
Tues 11	Higher Education Smart Campus Association (HESCA)	Brown's, London
Tues 18	Internet of Things Association (IoT)	Brown's, London
Tues/Weds 25/26	TCF18 – Transport Card Forum National Event	t.b.c., Manchester
OCT		
Tues 16	Smart Payments Forum (SPF)	Brown's, London
NOV		
Tues 6	Mobile & Identity	Brown's, London
Tues 13	Internet of Things Association (IoT)	Brown's, London
Tues 20	Higher Education Smart Campus Association (HESCA)	Brown's, London
DEC		
Tues 4	Transport Card Forum (TCF)	Brown's, London
Tues 11	Smartex Christmas Event	t.b.c.

The above dates may be changed through reasons beyond our control. Agendas will be circulated prior to each meeting with final venue and date details.

EXAMPLE MEETING AGENDA

Meeting agendas for all Forums are planned to include both technical and operational aspects of a topical nature that relate to the subject matter covered by each Forum. Days normally start at 9.30am with registration and refreshments, and formal sessions run from 10am until about 4pm, including a morning and afternoon refreshment break and a full seated luncheon.

For an example of an SPF meeting, please see below:

Smart Payments Forum (SPF) Meeting Agenda 2nd February 2016

Time	Topic	Speaker
09.30am	<i>Arrivals, registration and refreshments</i>	
10.00	Welcome, introduction and industry news	Paul Rodgers Vendorcom
10.15	Debate: The entry of non-banks and challenger banks: what does this mean for traditional banks and their customers?	Sophie Kernthaler, Barclaycard ; Aaron Baker, Lloyds Banking Group ; Will Banks, Challenger Capital ; Jason Bates, Mondo Bank
11.00	PSD2: what is it and what does it mean?	Brendan Jones The Human Chain
11.30	<i>Refreshment break</i>	
12.00	PSD2: the legal implications	Jonathan Rogers Taylor Wessing
12.30	Panel discussion: the impact of PSD2	Brendan Jones, The Human Chain ; Jonathan Rogers, Taylor Wessing ; Julie Patient, Hogan Lovells
1.00	<i>Luncheon</i>	
2.00	Mobile contactless payments using HCE	Paul Butterworth Proxama
2.30	<i>Refreshment break</i>	
2.45	Risk, security and fraud: the evolution of tokenisation	Colin Tanner DigiSEq
3.15	Summary & close	Paul Rodgers Vendorcom
3.30	<i>Informal networking session</i>

VITAL STATISTICS

A few interesting facts and figures about Smartex Forums and their membership since the first meeting of The Smart Card Club on 12th January 1993, at Great Fosters Hotel, Egham, attended by 93 delegates, and with 4 pre-paying founder members providing working capital.

- Date of first meeting: **12th January 1993**
- Number of members worldwide: **over 220 organisations**
- Number of UK members: **136 organisations**
- Number of delegate places since 1993: **nearly 17,000**
- Number of meetings since 1993: **over 530**
- Number of meetings in calendar 2016: **21**
- Number of different speakers since 1993: **over 1,800**
- Average attendee numbers per meeting in 2016: 39
- Number of separate companies attending meetings in 2016: **298**

MEMBER TESTIMONIALS

This is what some of our members and guests had to say about us in 2015/2016:

About our Forum meetings

"Smartex is an extremely valuable platform to bring together key industry players in what is a highly fragmented and complex application domain. Without the leadership to orchestrate and challenge key topics in Identification it would be far more difficult for the many players in this ecosystem to move forward and leverage the business growth opportunities based on making the technology easy to use and secure."

NXP Semiconductors

"The knowledge shared and networking makes this the most value for money event I've ever attended."

An English Local Authority member

About HESCA16 - our HESCA Conference and Exhibition

"Glasgow were great hosts and you, Annabel and Lawrence again surpassed yourselves. I thought it was a fantastic two days and already I'm looking forward to next year's one."

"I found the conference very interesting and it was good to meet with current customers and potential new ones."

"...as it was my first HESCA event, it was interesting to get a new practical perspective on such technology from potential users and suppliers as opposed to a more academic audience."

"...I have learned a lot from other contributors as well as of course suppliers. Thank you for your hospitality and assistance both over the past two days and at other meetings I have attended."

"I have to say I really enjoyed my time at the conference and just wish I had the opportunity to stay longer. I found the format and presentations really engaging and was pleased that I could also contribute. I've met some really useful contacts over the past few days and I am really excited about the partnerships going forward."

About TCF16 - our TCF Conference and Exhibition

"An excellent event that pleasantly surprised me. I attended TCF16 (representing a large SI firm) because we are keen to exchange ideas, listen to the subject matter experts and help contribute to thought leadership on how we can help our clients in this market which we believe is close to tipping point. My slight concern in advance was that the conference themes may have been a tad technology focussed, however the event itself was really well balanced, incorporating political, legal, social narrative all of which complemented and supported the technology components."

"I was very impressed by the event and the wide community of interest that you have. Thanks to you guys for organising such a great well organised show! You made it look effortless in organising. Look forward to more of them."

"Great event yet again. Your hard work and organisational skills were clearly appreciated by all. Quality of presentation and debate was excellent even if reality seems as far away as it ever was! ...for me this is core to why these events are so great as they can genuinely help innovators like [us] break down barriers and move things forward in ways most do not think possible."

About our Workshops

"I found the Smartex workshop informative and well organised. Richard, as host, was approachable, involved and kept the days flowing at a good pace. The assembled experts allowed for well balanced and relevant subject matter and the friendly environment provided a platform for constructive and lively debate. I would recommend the Smartex workshop."

"Thank you and congratulations on what I felt was an excellent Smartex event and workshop. I felt I was surrounded by inspired knowledge and insight from all directions related to Transit. As a delegate I learnt a great deal which I hope will enable my company to deliver innovative solutions and results out in the real world. Equally, may I thank you personally for your hospitality, good humour and excellent choice of venue..."

"Smartex provided a fantastic two-day session which will provide a solid grounding for any professional who wishes to understand the key technologies that underpin payments in the mass transit industry. A high calibre cross-section of industry players from platform providers, transit operators and consulting backgrounds provided a series of detailed presentations which culminated in lively debates. I took away valuable new insights into the future direction of the technology."

About our escorted trip to Cartes (now Trustech)

"I just want to personally thank you and Annabel for being such fantastic hosts and for making me feel so welcome on the trip. I had a brilliant time and found it was of great benefit."

"Thank you both for a very well organised and enjoyable Cartes trip. I enjoyed the company, the trip and even the 'navigation exercise' you guys set on Tuesday night with your 'find the restaurant'!"

"A big thank you for your superb hosting of the Cartes trip, and your warm welcome. As a Smartex 'virgin' the few days in Paris were certainly very interesting, informative and très jolie!"

About our independent consultancy services

"Smartex, through its experience and deep knowledge of the whole smart card field has provided the University of the Arts with a great insight into the use of smart cards in higher education. Smartex then worked with us to produce a set of detailed recommendations for our new access control system. They are now adding significant value by assisting us with implementing this scheme in what is a very tight timescale. Smartex's practical and cost effective approach to higher education smart card schemes, based on their unrivalled experience, is both unique and refreshing."

About our Smartexpress daily news service

"...I think your Smartex news-stream is of the highest quality. I know how much it takes to seek out, trawl through and then edit down material like this and you do it every day while retaining its relevance and interest. Kudos to you and your team."

SMARTEX MEMBERSHIP APPLICATION

Membership

Membership of participating UK Smartex Forums is by application and advance payment of the selected annual membership fee. Fee rates vary according to the number of delegate-attendances planned for any of the meetings of these forums. Membership levels may be upgraded at any time during a subscription year, but unused days from one subscription year cannot be carried over to the next. This approach allows members to enjoy a great deal of flexibility at very economical cost, as they can select those meetings and subject themes that interest them, and they can also choose which delegate(s) to send to each meeting.

Try before you buy

If you are considering membership, and your organisation has not previously attended a meeting, you are welcome to one meeting at a day-delegate rate of £300 + VAT, which will be deducted from your first year's membership fee, provided you join within 1 month of your attendance.

Participating Smartex Forums

The following is a list of Forums which members may choose to attend:

- Smart Card Club (SCC)
- Internet of Things Association (IoTA)
- Smart Payments Forum (SPF)
- Mobile & Identity
- Transport Card Forum (TCF)
- Higher Education Smart Card Association (HESCA)

Application for membership

We hereby apply to enrol for Smartex Forum Membership and we agree to hold as strictly confidential any information, whether written or oral, received by us by virtue of our membership, if described as such at the time of its provision, provided such information was not already in the public domain. We agree to pay the first year's membership fee within 14 days of returning the completed application form to Smartex. Currently, 22 meetings are held each year.

Membership Level	Tick one	£ before VAT	£ TOTAL
Level 1 4 attendances per year	<input type="checkbox"/>	1,100	1,320
Level 2 6 attendances per year	<input type="checkbox"/>	1,500	1,800
Level 3 8 attendances per year	<input type="checkbox"/>	2,000	2,400
Level 4 10 attendances per year	<input type="checkbox"/>	2,500	3,000
Level 5 12 attendances per year	<input type="checkbox"/>	3,000	3,600
Level 6 15 attendances per year	<input type="checkbox"/>	3,500	4,200
Level 7 20 attendances per year	<input type="checkbox"/>	4,750	5,700
Level 8 24 attendances per year	<input type="checkbox"/>	5,500	6,600
